Leased Lines at Abbey Mill Business Park

Leased Line connections are uncontended (meaning you don't share your connection with anyone else), and offer guaranteed uptimes and comprehensive Service Level Agreements (SLAs) – making them highly robust.

The bandwidth these connections offer is also scalable to your changing needs.

Connection availability:

Product	Bandwidth
1GB Fibre Leased Line	From 100Mbit/s – 1GB/s
100Mb Fibre Leased Line	From 10Mbit/s – 100 Mbit/s

A map showing a fibre route. A blue line connects a house icon (representing a customer location) to a red server rack icon (representing a data center). The route is labeled 'Godalming'. The map includes various roads like 'A3', 'A26', 'Eashing Ln', 'Eashing Copse', 'Milton Wood', 'Godalming', and 'Brighton Rd'. There are also labels for 'Map' and 'Satellite' in the top right corner.

I A 'bearer' is the total bandwidth a line can support, while the 'bandwidth' indicates what would be available to you on your package. Bandwidth can be increased up to the bearer limit, giving leased lines their scalability.

i Abbey Mill Business Park is 1.2 miles away from the Godalming exchange.
